Introduction

This policy is based on the FA's guidance for health and safety for football clubs.

The health and safety policy for training & games is appropriate to the type of facilities and equipment used.

The Club's Health and Safety Policy for training & matches, means applying common sense to the use and maintenance of the pitches and facilities used by the Football Club. Staff must ensure that it is a safe environment to carry out the club's activities.

Health and Safety Policy for Training & Games

1.
